

POMPANO BEACH, FL. (October 2, 2018) (OTC: BWMG) Brownie's Marine Group is exhibiting at this year's [IBEX convention](#), North America's largest technical boat-building showcase and marine industry trade show, October 2nd-4th in Tampa, FL. Come find us at booth #133 where we will be showcasing our unique range of dive solutions, OEM products and integration services specifically tailored to meet the demand of today's boat builders.

LW Americas IBEX debut

The LW 100 Auto Marine debuts at IBEX this year and features top of the line German-quality engineering and features that will make it the obvious choice for the boat building industry's option list.

- Best-in-class performance with 3.5 CFM / 5000-PSI capable and an industry leading 7+ hour run time
- Smallest footprint reduces space and minimizes interference with other products
- Best OEM margins with the most aggressive dealer pricing available
- Lowest German-quality automated compressor retail price

YachtPro™ high-pressure compressors

The line of Yacht Pro™ high-pressure compressors utilizes top quality compressor engineering, prioritizes floor space and incorporates key features for the marine industry such as variable frequency drive soft starters, automatic compressor start and stop, and a sturdy starboard base for easy installation. Together these features make up the ultimate compressor for all of your high and low pressure on-board applications.

NitroxMaker™ systems

Since the 1980's Nitrox has been the premier choice of dive gases in the industry. NitroxMaker™ makes it easy to generate your own nitrox gases up to 40% with the industry's only low-temperature nitrox membrane system. Choose your mix with the turn of a dial and start filling tanks.

Brownie's Third Lung hookah systems

Brownie's Third Lung set the industry standard for hookah with our range of floating and integrated dive systems in both electric and gasoline configurations. Our E-Reel System features an electric motor to retract your hoses to easily and neatly to make storage a breeze. Whether you're diving for recreation or for prop and hull maintenance you can rest

BMG showcases at IBEX in Tampa, FL this week

assured that Brownie's has you covered—we invented “diving made easy!”

Tank fill and dive locker design

Brownie's understands that every boat manufacturer is different and every application is unique. We offer custom tank fill systems based on customer preference and dive lockers to keep your dive gear neat and organized. Everything from tank fill manifolds, remote fill panels, storage tank racks, fill baths and more can be designed, constructed, and installed to your needs and specifications.
