

BROWNIE'S MARINE GROUP SUBSIDIARY, BLU3, NEARS FIRST
PRODUCTION RUN OF INITIAL UNITS OF "NEMO," THE WORLD'S
SMALLEST DIVE SYSTEM

Expects to Begin Shipping Units to Customers in Q2 - 2019

March 6, 2019, Pompano Beach, FL - Brownie's Marine Group, Inc. (OTC Pink: BWMG) a leading developer, manufacturer and distributor of highly specialized dive and safety products announced that it had ordered parts necessary to commence the first production run of its breakthrough dive development stage product "[NEMO](#)," which is an ultra-portable, compact, affordable, and easy-to-use dive system. NEMO was engineered to revolutionize the 100-year old sport of snorkeling. The 1-1/4-pound submersible battery pack powers the automatic air delivery system for an average of an hour. Multiple patent applications, both foreign and domestic are in process to potentially protect this industry disrupting technology out into the year 2038 and beyond. The Company formed a subsidiary BLU3, Inc. to develop and market new electric-shallow dive systems that are meant for the recreational diving population, including NEMO.

In November 2018, the Company concluded its Kickstarter campaign, which offered units at attractive pre-buy pricing resulting in 345% of the minimum sales goal, with over 300 units pre-ordered. The Company also displayed the first NEMO prototype at the largest and most important marine industry's international conference, the Diving Equipment and Marketing Association Conference ("DEMA Show") held in November 2018 in Las Vegas, NV.

Robert Carmichael, Brownie's Chairman and CEO stated, "We are extremely encouraged by the interest shown to date in the NEMO product and believe it will be an excellent incremental revenue generator for us. We continue to make minor modifications and engineering improvements to the product, but I'm pleased to report that we are on track for our first production run of NEMO in the second quarter of 2019."

About Brownie's Marine Group

Brownie's Marine Group, Inc. is the parent company to a family of innovative brands with a unique concentration in the industrial, military and recreational diving industry. The Company, together with its subsidiaries, designs, tests, manufactures, and distributes recreational hookah diving, yacht-based scuba air compressors and nitrox generation systems, and scuba and water safety products in the United States and internationally. The Company has three subsidiaries including Trebor Industries, Inc., founded in 1981 and dba as "Brownie's Third Lung," BLU3, Inc., and LW Americas. The Company is headquartered in Pompano Beach, Florida and employs 18 full-time staff. For more information, visit: BrowniesMarineGroup.com.
