Dive Conditions: Week 5

Visibility: Good

Current: Strong

Report: Our team is moving forward with production and preparing for DEMA; the largest trade-only event in diving. We haven’t experienced any other setbacks so far and are moving fast.

Forecast: We’ve decided it is best to send the surveys closer to delivery dates (February) in case our backers have any changes in address, decisions for additional gear, etc.

We’ll be updating our backers every two weeks from now on, but follow our bubbles on social media for more.

Look out for discounts on BLU3 swag via social media! In the coming months, we’ll be adding additional gear that aligns with our mission and vision for a beautiful BLU3 planet.

????BLU3 Team
