

LW Americas came in hot at FDIC

POMPANO BEACH, FL. (May. 4, 2018) (BWMG) – Brownie's Marine Group and the LW Americas team attended FDIC International, an annual conference and exhibition featuring firefighting apparatus and fire industry technology. On display were two L&W Compressor models best-suited for the fire industry:

LW 100 G

This mobile compressor was designed to handle remote operations without immediate access to electricity or filling stations.

LW 570 ES

A feature-rich and robust compressor with improved sound insulation for ultra-quiet running (64 dBA) and a highly efficient pre-separator unit which greatly improves filter cartridge lifetime.

In addition to the elite line of L&W Compressors, the LW Americas booth also featured:

Brownie's Rapid Entry System – which allows first responders to act immediately when submersion accidents occur.

SpaceSaver™ Blast Containment Systems – For the prevention of tankfill accidents.

Hurricane Firefighting Fans – Positive Pressure Ventilation fans for extreme duty service.

LW Americas Came in Hot at FDIC

and Brownie's NitroxMaker™

Brownie's NitroxMaker makes nitrox mixtures of your choice without the need for pure oxygen and is the only low temperature nitrox generator on the market.

With 34,425 attendees, exhibitors, sponsors and instructors from over 64 countries made this year's FDIC International a record-breaking event, both in overall attendance and exhibit floor space. The attendance and enthusiasm did not go unnoticed at the LW Americas booth, which saw a steady amount of visitors and interest – Especially in the [Brownie's RES System](#).

LW Americas Came in Hot at FDIC

LW Americas is actively seeking distributors, resellers, and technicians in all regions to join their team. Contact LW Americas at info@lwamericas.com for additional information.
